

## FEATURES

- Adjustable Timer (1 – 30min) with audible sound
- Power regulation (10 – 100%)
- Build-in temperature reader
- Temperature probe for models up to 1300 °C
- LED panel displaying Power, Time and Temperature
- Water cooling system could be quoted upon request

EasyMelt compact desktop unit, perfect for quick induction melting of small batches.

Fast induction melting is achieved using efficient circuits with low energy consumption.

These flexible systems can be configured to melt different metals and alloys. Temperature control prevents overheating and burning of the metal.

The stainless steel front with high temperature top cover ensures heavy duty use.

This reliable equipment is easy to install, maintain and service.

## APPLICATIONS

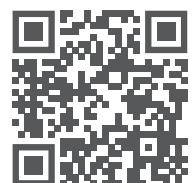

Desktop Induction Melting of Metal

## HEADQUARTERS

10 Colt Court  
Ronkonkoma, New York 11779

## BENEFITS

- Improved energy efficiency
- Higher degree of controllability
- Increased repeatability
- Low maintenance requirements
- Increased productivity
